FIRST AID, MEDICAL AND COUNSELLING FACILITIES

FIRST AID FACILITIES

Arignar Anna College (Arts & Science) has well-equipped first aid facilities to ensure immediate and initial care for individuals who suffer from injuries or illnesses while on campus. Well-equipped first aid kids are strategically placed in accessible locations throughout the college, including classrooms, laboratories and administrative areas. The first aid kits contain basic supplies such as bandages, antiseptic wipes, adhesive tapes, pain relievers, scissors, tweezers, and gloves.

Designated staff members and faculties are trained in basic first aid procedures, which include teachers, administrative staff, security personnel or dedicated first aid responders. Our institution collaborates with external medical professionals to conduct first aid training sessions for staff and students.

AAC has a well-defined emergency response plan that includes procedures for seeking and providing first aid in case of accidents, injuries, or medical emergencies. Our institution has established connection with a nearby hospital, ensuring rapid access to emergency medical care when necessary. Having an ambulance service on standby or a designated emergency response team enhances the overall preparedness. The students with serious illness are immediately taken to any of the nearby hospitals and parents are informed immediately.

MEDICAL FACILITIES

Medical facilities in Arts & Science institutions are essential to ensure the health and well-being of students, faculty, and staff. The institution has hospital and ambulance facilities nearby for medical emergency. The institution offers 24/7 medical care for all students and staff. Students with illness are taken to the nearby hospital immediately using the ambulance service. Students have round-the-clock access to a variety of gene-based medications.

Our institution has established collaboration with on-campus hospital, which ensures quick access to advanced medical facilities when required. Proper hygiene and sanitation practices in medical facilities are implemented across the campus to prevent the spread of diseases. The ultimate goal of the institution is to help members create a healthy and amicable environment.

"Medical Expenses Reimbursement" scheme is granted for the benefit of employees and family members working in Arignar Anna College (Arts & Science).

COUNSELLING FACILITIES

The institution imparts quality education to develop leaders and professionals academically and technically competent with strong professional ethics. The institution maintains a healthy environment and takes the necessary initiatives for the growth and development of its students. Our institution has a mechanism of counselling the students to address both personal and career related issues. Initially students are counselled by their respective tutors and are provided with the needed support and guidance. If the issue persists, then it is taken to the respective department HODs. Issues that require more attention are taken to the principal for further action.

Our institution offers group counselling sessions to create a supportive community where students can share experiences, learn from each other, and realize that they are not alone in their challenges. Workshops and Seminars are organized on topics related to mental health, stress management, coping strategies, and personal development to raise awareness and provide additional resources for students. Seminars, talks by experts and interactions with renowned counsellors help to create awareness among the students regarding gender-related concerns.

By implementing these components, our institution creates a comprehensive counselling program that addresses the diverse personal needs of students and contributes to a supportive and healthy campus environment.
